Cobeco Intimate

Sex and physical intimacy play an important role in our life. A healthy intimate life gives pleasure and joy, contributes to the emotional bond between partners and reduces stress and tension. Cobeco Intimate is a compact line with all the essential products that contribute to a good and healthy intimate life.

Sexuality is a difficult subject to address. Nevertheless, almost everyone experiences some kind of discomfort or problem in this area. Although people often think they are the only ones, a large number of complaints occur to the vast majority of people. Less or no sex drive, pain during intercourse, erectile dysfunction, premature ejaculation, menopause or drug use can affect the intimate life... Cobeco Intimate offers help to improve these problems.

Cobeco Intimate includes a basic range of essential products for a healthy and enjoyable intimate life. Within a relationship, intimacy can change. In many cases, the passion that characterizes the beginning of a crush decreases over time. The influence of this on the intimate life differs per couple, but even a good relationship can lose intimacy. This does not have to be a problem, but it is often experienced as such. With the help of products that contribute to more fun in the area of intimacy, the sexual desire can be brought back into the relationship.

No or less sex drive

There are several common complaints that can affect sexuality and the intimate life. No or less sex drive often occurs. However, if this is a problem, you can look for the causes. Cobeco Intimate offers a range of stimulating products that can provide support in creating the right atmosphere and setting for improving intimacy, such as lubricants and massage gels.

Erectile difficulties

In addition, one in ten men, both young and old, suffer from erectile problems. Sometimes this has a medical cause, where only a doctor can help, but often there are other factors involved, such as stress and / or fatigue. Then a product like Cobeco intimate performance can offer support. It supports erectile and sexual performance thanks to ginseng and maca.

Orgasm difficulties

Some people experience orgasm difficulties. Problems with orgasms often have different causes in men and women. For men who experience premature ejaculation, there is Cobeco Intimate Delay Gel. Cobeco intimate Performance can provide extra energy and stimulation to make it easier. Women who experience orgasm difficulties can benefit from Cobeco Intimate Stimulation Gel.

Pain during sexual intercourse

Pain during sexual intercourse is also a common problem in both men and women which can take away the fun and reduce intimacy between partners. Cobeco Intimate lubricants and sensual gels help to supplement the natural body moisture, which reduces friction. This provides more comfort and a pleasant and sensual feeling so sexual intercourse will be pleasurable again.

Becoming older

A satisfactory intimate life is also possible for the elderly. Changes in the body such as hormonal changes or disease can influence the intimate life. This is why a little more stimulation may be needed to get excited and the natural moisture of the intimate areas may decrease. The lubricants, gels and stimulating capsules provide the right support where necessary.

Intimate Toys

The use of intimate toys can make the intimate life more exciting. Research has shown that one in three people use an intimate toy on a regular basis. Cobeco Intimate Cleaner adds to this fun because a good cleansing of the toys prevents infections and ensures extra hygiene and longevity of the often expensive toys.

Cobeco Intimate Lubricant Water-Based Aloë Vera

Cobeco Intimate Lubricant Aloë Vera is an Intimate water-based lubricant with caring and softening properties. For natural comfort and pleasure.

- ✓ Has a caring effect on the skin
- ✓ Hydrates, softens, calms and cools the skin
- ✓ Supports vaginal lubrication
- ✓ Provides extra comfort during intercourse
- ✓ Has a pleasant fresh and subtle flavor and taste
- ✓ Safe in use with latex condoms

Cobeco Intimate Lubricant Water-based Aloë Vera provides more comfort during sexual activity and supplements the natural body moisture, making sexual intercourse more intense. Thanks to the addition of active extracts, this intimate lubricant has a caring effect. Cobeco Intimate Lubricant Water-based Aloë Vera provides more erotic pleasure for both partners. This high quality lubricant has a pleasant exotic taste and smell. The ingredients have special properties which make it soothing and revitalizing. Cobeco Intimate Lubricant Aloë Vera is very suitable for women who experience vaginal dryness, for example due to drug use or menopause.

For men and women who are suffering from a lack of libido, this lubricant can offer an extra boost. This lubricant can also be used in combination with erotic toys and in combination with latex condoms.

How does the product work?

Apply a desired amount of lubricant to the selected body parts. The water-based formula gives the product a light and easily spreadable texture which is neutral to the skin.

During use, the lubricant provides a gentle and comfortable feel. A water-based lubricant such as this is gradually absorbed by the skin and dries faster than a silicone lubricant. If so, add extra if you wish, to ensure a continuous gliding feeling. This lubricant can easily be washed off.

Content	50 ml / 100 ml
Ingredients	Aqua, Glycerin, Propylene Glycol, Hydroxyethylcellulose, Sodium Benzoate, Polysorbate 20, Peg-40 Hydrogenated Castor Oil, Levulinic Acid, Sodium Levulinate, Maltose, Aroma, Agave Tequilana Leaf Extract, Sodium Saccharin, Sodium Hydroxide, Citric Acid

Cobeco Intimate Lubricant Water-Based Passion Fruit

Cobeco Intimate Lubricant Water-Based Passion Fruit is an intimate water-based lubricant with a unique soft texture and sensual taste. To support the libido, for more comfort and an intense experience.

- ✓ Relaxing effect thanks to the sensual scent
- ✓ Stimulates the libido
- ✓ Supports the natural moisture of the intimate areas
- ✓ Provides extra comfort during intercourse
- ✓ Safe in use with latex condoms

This intimate lubricant has a hydrating and moisturizing effect. It provides more comfort during sexual activity and complements the natural body moisture, making intercourse more intense. Cobeco Intimate Lubricant Water-Based Passion Fruit has a pleasant exotic taste and aroma and provides more erotic pleasure for both partners.

The exotic aroma of passion fruit has a relaxing effect, making it easier to relax. For men and women who suffer from a lack of libido, this lubricant can provide extra stimulation. This lubricant can also be used in combination with intimate toys and in combination with latex condoms.

How does the product work?

Apply a desired amount of lubricant to the selected body parts. The water-based formula gives the product a light and easily spreadable texture that is neutral to the skin. During use, the lubricant provides a gentle and comfortable feel. A water-based lubricant such as this is gradually absorbed by the skin and dries faster than a silicone lubricant. If so, add extra if you wish, to ensure a continuous gliding feeling. This lubricant can easily be washed off.

Content	100 ml
Ingredients	Aqua, Glycerin, Hydroxyethylcellulose, Aroma, Sodium Benzoate, Levulinic Acid, Sodium Saccharin, Sodium Levulinate, D-Limonene, Sodium Hydroxide, Citric Acid

Cobeco Intimate Lubricant Silicone-Based

Cobeco Intimate Lubricant silicone-based is an intimate lubricant with a unique gliding texture. For the support of the natural body moisture and more comfort.

- ✓ Provides more comfort for both men and women
- ✓ Supports the natural moisture of intimate areas
- ✓ Helps with vaginal dryness
- ✓ Prevents excessive friction and premature ejaculation in men
- ✓ Does not get adsorbed by the skin thanks to the silicone-based texture
- ✓ Safe to use with latex condoms

Cobeco Intimate Lubricant Silicone-Based is specially developed to complement the natural body moisture. It hydrates and offers natural support of the intimate zones for long lasting lubrication. The use of a silicone lubricant also provides extra comfort during intercourse, making it more pleasurable.

Many women experience some degree of vaginal dryness. After a pregnancy, through menopause or drug use. This can cause pain during intercourse. A silicone lubricant can help prevent this by providing long-lasting pleasurable gliding and a silky feeling. Also for men it could be nice to use a lubricant, both with and without a condom. Lack of body moisture can cause (too) much friction, which feels uncomfortable and even painful. In addition, this can cause premature ejaculation.

How does the product work?

Apply a desired amount of lubricant to the selected body parts and spread it gently. The gel-like formula gives this product a light and easy spreadable texture which is neutral to the skin and does not cause irritations. A silicone lubricant does not penetrate into the skin, but puts a protective layer around the skin, causing a long-lasting pleasurable gliding and a silky feeling. Because of this it is also very suitable as a massage gel. Also in use under the shower or in water, this silicone lubricant keeps its function because it does not dissolve in water.

Because this lubricant is not absorbed by the skin, less is needed than using a water-based lubricant. If desired, add some lubricant for a guaranteed smooth, pleasant gliding feeling. Safe in the use with latex condoms.

Content	100 ml
Ingredients	Cyclopentasiloxane, Dimethicone

Cobeco Intimate Toycleaner

Cobeco Intimate Toycleaner is specially developed for the hygienic and sustainable cleaning of Intimate toys or massage devices.

- ✓ Cleans quickly and effectively
- ✓ Prevents contamination
- ✓ Very suitable for cleaning after use with a silicone-and water-based lubricant
- ✓ Easy to handle with a dry cloth
- ✓ Ensures the functionality and longevity of your intimate toy

To prevent contamination and to ensure longevity of your intimate toy, producers of these products advise the use of a good detergent. Many people wash their intimate toy quickly in water or put them aside quickly to clean it later, which is not hygienically responsible.

Cobeco Intimate Toycleaner is specially developed for quick and effective cleaning and is easy to handle with a dry cloth. By cleaning your toy regularly it remains in a good condition. In addition it prevents contamination and infections.

How does the product work?

The handy packaging makes the cleaner easy to dose. Apply a desired amount onto the erotic toy, depending on the size of the surface to be cleaned. Let the cleaner work for a few minutes and if required, rinse it off. Provides a thorough cleaning and maintains the quality of erotic toys.

Content	150 ml
Ingredients	<5% - Non-ionic surfactants - Anionic surfactants, Methylchloroisothiazolinone, Methylisothiazolinone

Cobeco Intimate Massage Oil Relax

Cobeco Intimate Massage Oil Relax is a luxurious Massage Oil which ensures relaxation.

- ✓ Stimulates the blood circulation and has a relaxing effect
- ✓ Contributes to a sensual mood
- ✓ Provides smooth skin to skin contact

Cobeco Intimate Massage Oil is a luxurious Massage oil, rich of caring ingredients. The oil ensures maximal pleasure during full body massages. Besides the medical use of a massage oil, in case of a sports or rehabilitation massage, it can also bring partners closer together. During a massage a lot of energy is released which can have a relaxing effect on both partners and increase intimacy.

Because of the unique formula Cobeco Intimate Massage Oil Relax has a silky smooth texture and is easy to apply and spread onto the skin. This unique massage oil based on high quality ingredients is very suitable for creating intimate moments.

How does the product work?

This massage oil reduces friction that results from skin to skin contact and ensures smooth gliding. It stimulates the blood flow and relaxes the muscles. The handy and efficient packaging makes it easy to dose the oil. Apply a desired amount onto the skin. If desired more oil can be applied during the massage. Massage oil puts an extra layer onto the skin, which makes it easy to massage. If too little oil is used and the skin is not covered sufficiently, friction arises which can lead to irritation. Always use sufficient massage oil. The formula is based on high quality ingredients, which makes the skin feel nurtured and soft after each massage session.

Content	150 ml
Ingredients	Paraffinum Liquidum, Ethylhexyl Stearate

Cobeco Intimate Massage Oil Sensual

Cobeco Intimate Massage Oil Sensual is a caring massage oil with a seductive sweet scent. Ideal to create the perfect setting for intimate and sensual moments.

- ✓ Massage oil with an aphrodisiac effect
- ✓ Stimulates the blood circulation and has a relaxing effect
- ✓ Contributes to a sensual mood.
- ✓ Provides smooth skin to skin contact

Cobeco Intimate Massage Oil Sensual is made of high quality ingredients and has a lovely seductive sensual scent which helps to relax to body, release stress and make it easier for men and women to get into a sensual mood. Cobeco Intimate Massage Oil Sensual contains a combination of spicy and floral fragrances, including bergamot, French lavender, citrus, rose and vanilla, complemented with a mix of different flower aromas.

The smell of this oil adds to an ultimate relaxation and massage experience for both partners, especially when this massage is of sensual nature. The smell enhances the energy that is released and will bring partners closer together during the massage.

How does the product work?

Apply a desired amount onto the desired body parts. Due to the soft texture, the oil is easy to spread and it ensures smooth skin to skin contact. This massage oil is specially suitable for full body to body massages and helps to optimally relax the body and muscles.

During the massage the blood flow is extra stimulated. The rich nurturing formula ensures the skin feels soft and smooth after each massage session which makes it a pleasure for the body and the mind.

Content	150 ml
Ingredients	Paraffinum Liquidum, Ethylhexyl Stearate, Parfum, Linalool, Benzyl Salicylate, D-Limonene, Alpha-Isomethyl Ionone, Citronellol, Coumarin

Cobeco Intimate Sensual Gel

Cobeco Intimate Sensual Gel is a caring gel for the female intimate areas. Enhances the sexual desire and lust, for more intense intimate moments.

- ✓ Enhances the sensitivity of the female intimate areas
- ✓ Provides sensual stimulation of the erogenous area to improve the libido
- ✓ Stimulates the female orgasm
- ✓ Supports with vaginal dryness
- ✓ Has a fresh scent and taste

Many women have difficulties with getting an orgasm. They feel as if they miss out on the experience of climaxing with their partner. For these women a stimulation gel can offer a solution. Cobeco Intimate Stimulation gel is specially developed to enable women to reach an orgasm more easily. This gel is based on high quality natural ingredients, including menthol, which heats up the sensitive skin of the erogenous zone causing pleasant tingling. The pubic lips and clitoris will become much more sensitive from this. When touching or stimulating these parts an orgasm can be reached more easily. This provides an intense experience of the intimate moments and moreover has a positive effect on the sexual desire and libido.

Because the gel is not fully absorbed by the skin, it also supports the natural body moisture. This facilitates penetration because there is less friction, so pain during intercourse can be prevented. This is experienced as very pleasurable by both men and women. Because Cobeco Intimate Sensual gel supports the natural body moisture, it is also very suitable for women who experience vaginal dryness as a result of menopause or drug use. It can also be used in combination with intimate toys or latex condoms.

How does the product work?

Due to the handy packaging the product is easy to dose. Apply a desired amount onto and around the clitoris. Directly after application of the gel the women experiences cold and warm tingling. The duration of this feeling depends on the dosage. Apply more gel if desired. The product has a light structure, is easy to spread and has a fresh and neutral scent. The specially developed formula contains natural extracts, including menthol, causing the clitoris and sensitive skin around it to heat and tingle in a pleasant way. Because of this a greater excitement and maximum pleasure is experienced.

Content	50 ml
Ingredients	Aqua, Glycerin, Propylene Glycol, Alcohol Denat, Carbomer, Polysorbate 20, Sodium Benzoate, Potassium Sorbate, PEG-40 Hydrogenated Castor Oil, Menthyl PCA, Disodium EDTA, Menthol, CI 19140, CI 17200, Aminomethyl Propanol

Cobeco Intimate Delay Gel

Cobeco Intimate Delay Gel has a positive effect on delaying and controlling the ejaculation. For longer and maximum pleasure during intimate moments.

- ✓ Has a cooling effect
- ✓ Without loss of sensitivity
- ✓ Contributes to the prevention of premature ejaculation
- ✓ Based on natural ingredients, including menthol and laureth-9

About one in three men worldwide suffer from premature ejaculation. This can have different causes, from stress to hypersensitivity or friction. For men and their partners who experience this as very annoying, a delay gel can offer a solution.

Cobeco Intimate Delay gel is a cooling gel for the male genitals and intimate area. It has a slightly anesthetic effect, but does not numb the skin. The gel helps to prevent premature ejaculation without losing feeling, so optimal pleasure can be experienced.

Thanks to Cobeco Intimate Delay gel a large part of men who suffer from premature ejaculation is able to enjoy intercourse longer and more intense.

How does the product work?

Apply a desired amount onto and around the penis. For optimal functioning of the gel, it is advisable to apply the gel during or before foreplay and spread it over all parts of the penis. Application during massaging the penis is experienced as very pleasurable by many men.

The gel has a light texture, is easy to spread and contains natural extracts which are neutral to the skin. Mentha Piperita Oil provides a cooling effect, Laureth-9 and Avena Sativa Kernel have a slightly anesthetic effect, making the skin slightly less sensitive for touching, friction so premature ejaculation can be prevented. However, the skin feels not completely numbed, so an optimal feeling can certainly be experienced.

Content	50 ml
Ingredients	Aqua, PEG-7 Glyceryl Cocoate, PEG-40 Hydrogenated Castor Oil, Laureth-9, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Alcohol, Aminomethyl Propanol, Avena Sativa Kernel Extract, Carbomer, Glycerin, Humulus Lupulus Cone Extract, Limonene, Mentha Piperita Oil, Ethylhexylglycerin, Phenoxyethanol

Cobeco Intimate Performance for men

Cobeco Intimate Performance for men supports the erectile ability and sexual performance thanks to Ginseng and Maca.

- ✓ Supports the natural erectile ability
- ✓ Improves sexual performance
- ✓ Provides more energy and increases endurance

Not getting an erection or full erection is a difficult subject to address for many men. However one in ten men experiences this problem to a certain extent. Erection difficulties can have many causes of physical, psychological or sexual nature. But also age, side effects of medication and an unhealthy lifestyle can be of influence.

Cobeco Intimate Performance for men can offer a solution. This natural stimulant improves the blood flow to the genitals and the blood flow of the penis. This way, the penis will get erected faster and longer. These tablets include ginseng, a natural substance that supports the erectile capacity. Maca, also a natural herb, has a proven positive effect on the libido. In addition, the capsules provide extra energy and more stamina, which has a positive effect on sexual performance.

How does the product work?

This unique formula has been developed on the basis of natural extracts. The balanced composition of ingredients support the erectile ability, sexual desire, libido and sexual performance.

The green tea in this formula ensures that the blood circulation in the entire body is stimulated and contributes to elastic blood vessels and a healthy prostate. Panax Ginseng is used for centuries as a natural remedy for fatigue and as a source of energy with physical or mental efforts and it supports in particular the erectile ability.

Ginseng provides more nitrogen in the blood. Nitrogen creates a dilation of the blood vessels and keeps them flexible. More nitrogen means better blood circulation and that is of great importance for the erectile ability and testosterone levels.

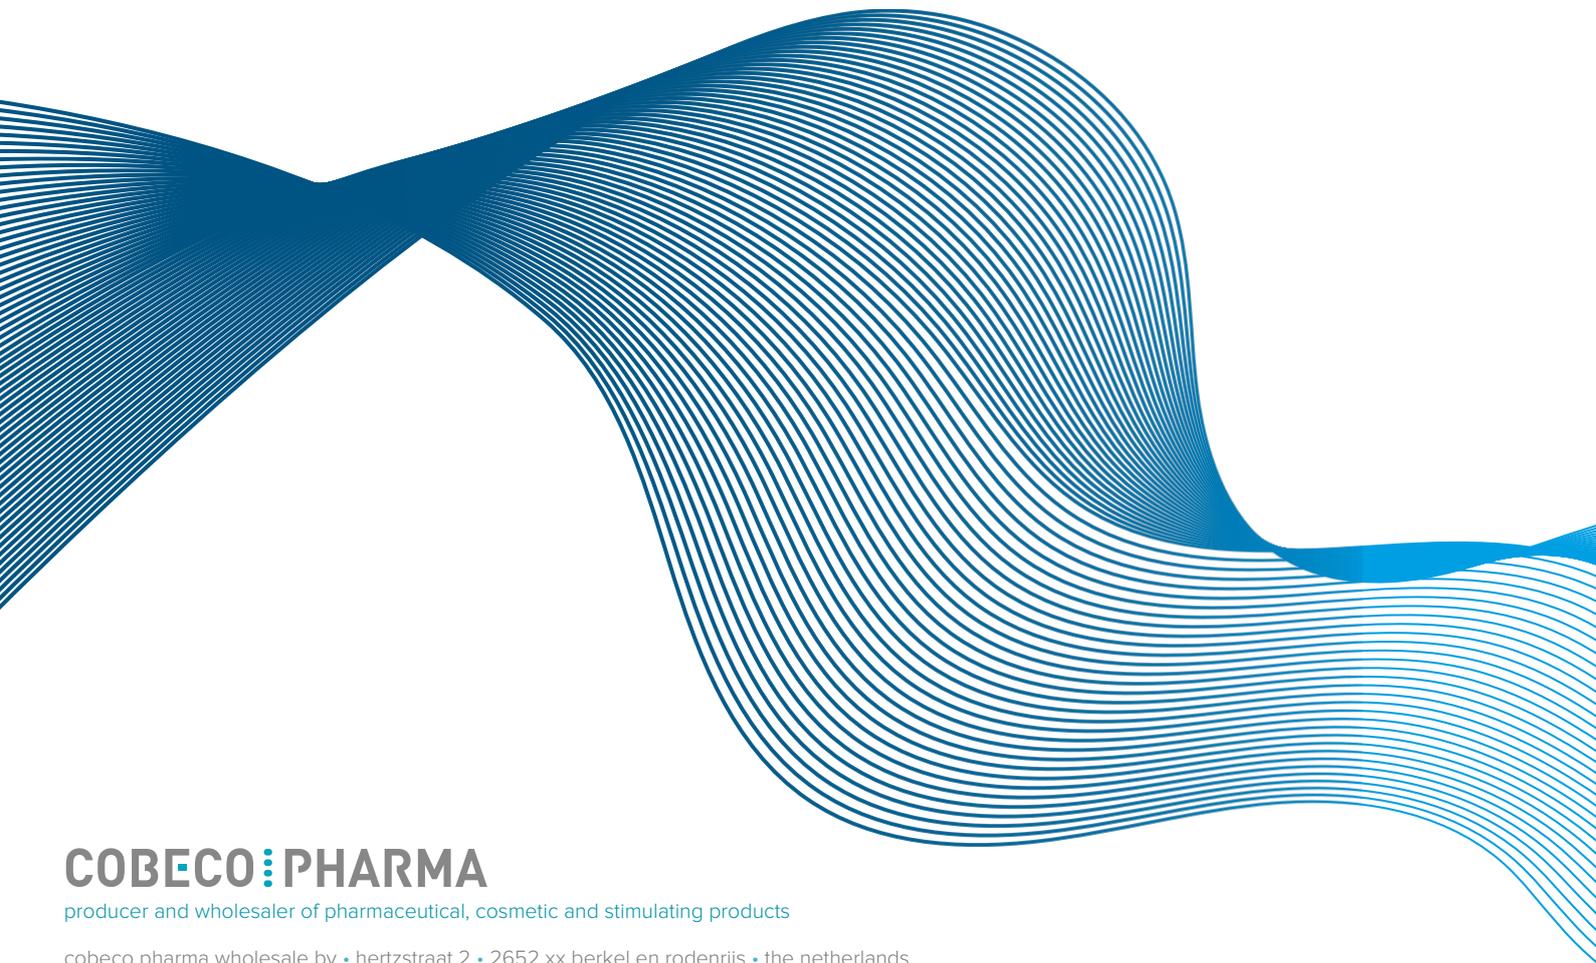

Maca stimulates the libido and sperm production. Maca is grown high in the Andes mountains in Peru. It is traditionally used by the local population as a natural source to reduce hormone-related disorders. This herb increases the activity of the physical cells which improves the blood circulation and also the erection. The maca root has a high nutritional value; it contains many minerals, essential fatty acids, protein and amino acids. One of the special features of maca is that it works as an adaptogen, a substance that provides a better hormone balance. This is especially important when it comes to fluctuating hormone levels, which happens with aging. Maca stimulates the hormonal system and the production of testosterone, which increases the potency.

The combination of vitamins B3, B12 and C provides more energy which has a positive effect on the endurance.

For an optimal result the values of these extracts and vitamins have to be at a constant and high level. With daily use, the natural extracts, including maca, panax ginseng, green tea and vitamins B3, B12 and C have an optimal effect, which gives the best achievable long term effect.

Cobeco Intimate Performance for men

Content	30 tabs
